Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: the applicants' response to the non-final rejection is persuasive. The arguments overcome the rejection, as such, the prior art fails to show or fairly suggest the first and second double-mode surface acoustic wave filters, connected in parallel with the claimed frequency relationships and energy transmittance ranges.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
